

Dualco Piggy Back Fitting Adapters

A Mainstay In The Valve Service Industry For Over 30 Years.

- 10,000 psi Rated
- Fast Emergency Installation
- Solid Steel Construction
- Zinc Corrosion Protection
- 316 Stainless Models Available
- Made by Dualco in the U.S.A.

Dualco Piggy Back Fitting Adapters have proven to be valuable assets for all valve service technicians. Dualco was first to offer the P. B. Fitting Adapter, part number 10765, with a nylon seal ring and locking device. P. B. Fitting Adapters are especially needed in emergency valve lubrication situations, when the primary valve lubrication fitting cannot be replaced.

■ The nylon seal ring engages the damaged or leaking valve lubrication fitting and allows the injection of valve cleaners or valve lube sealants, while the valve remains under pressure. The P. B. Fitting Adapter provides a temporary repair.

■ After installation, the P. B. Fitting Adapter can be safely left in place, or removed and used repeatedly.

Piggy Back Fitting Adapter Models

Model	Description	Material
10585	GBH Fitting Inlet x SBH Coupler outlet	Steel • Zinc Plate
10735	SBH Fitting Inlet x SBH Coupler outlet	Steel • Zinc Plate
